PROFILE

Motivated and resourceful software engineer with hands-on experience in Android development, IoT, and network optimization. Proficient in Java, with a strong track record of designing innovative, high-performance solutions. Experienced in configuring complex network infrastructures and collaborating across teams to meet technical goals.

💻 TECHNICAL SKILLS

PROGRAMMING & FRAMEWORKS

Java, C, C++	★★★★★
JavaScript	(Upskilling)

WEB & MOBILE

HTML5 & CSS3	★★★★★
Android SDK	★★★★☆

DATABASE & TOOLS

MySQL & JDBC	★★★★☆
Git & GitHub	★★★★★

INFRASTRUCTURE

Routing / WLC	★★★★★
Spring Boot	(Learning)

DEVELOPMENT WORKFLOW

SDLC, Debugging, Project Documentation, Agile Mentality	★★★★★
Microservice	(Learning)

💼 EMPLOYMENT HISTORY

Computer Service Provider

CTT Co., Ltd

Jun 2019 – Apr 2020

- Executed software integration and hardware configuration setups.
- Calculated storage server requirements for optimal performance.
- Provided technical support and training to end-users for software applications.

Network Engineer (OJT)

ATG Systems Co., Ltd

May 2018 – Aug 2018

- Configured routing protocols for efficient data center operations.
- Designed switching equipment systems to optimize network performance.
- Collaborated with team members to enhance system functionality and reliability.

</> FEATURED PROJECTS

Professional Web Resume

[View Code ↗](#)

A live, responsive resume hosted on GitHub Pages demonstrating proficiency in HTML5, CSS3, and Git version control.

KEY PROJECTS

Contract Management System

[View Code ↗](#)

A live, responsive application demonstrating proficiency in modern web workflows and version control.

Campus-Wide Wireless LAN Deployment

Networking

University of Computer Studies, Taunggyi

2018

- Planned and implemented WLC setup for university campus.
- Ensured seamless roaming and user authentication across buildings.

IoT Home Automatic Control System

IoT

Product Show Exhibition

2018

- Developed a control system using IoT technology and embedded programming.
- Tested and validated system functionality for reliable operation.

Hotel Booking System (Android Mobile App)

Mobile Dev

UCST Training Project

May 2017 – Jun 2017

- Developed a full-featured hotel booking application utilizing the **Java** programming language.
- Implemented responsive and user-friendly UI elements using **Android Studio, XML layout, and Android SDK**.
- Managed robust data storage and retrieval systems using **MySQL database**.
- Collaborated with peers to analyze complex requirements and enhance overall application functionality.
- Conducted rigorous testing and debugging to ensure high-performance and stability.

EDUCATION

Bachelor of Computer Technology

University of Computer Studies, Taunggyi

Graduated Feb 2019

💡 LANGUAGE & PERSONAL SKILLS

English Intermediate

Problem Solving Advanced

- Strong problem-solving and troubleshooting mindset
- Effective team collaboration
- Conscientious and responsible project contributor
- Clear reasoning ability and good communication skills

◎ CAREER OBJECTIVE

To secure a position that allows me to leverage my education and experience in software development while contributing to the mutual growth of both myself and the organization.
